(54) EXTERNAL CONNECTOR FOR PORTABLE TELEPHONE SET

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain an external connector with a simple configuration at a low cost that is connected to a portable telephone set for transfer of various data and for setting of operation.

SOLUTION: A connector 24 of this external connector is connected to a portable telephone set and the external connector mutually sends/receives a command and data to/from the set under an instruction of a control section 21 via an interface 23. A storage section 22 has a music data storage section 22a that stores music data of an incoming melody and a model dependent command table 22b that stores a command to be sent to the set by models. A user of the set can write the music data of a desired incoming melody to the music data storage section 22a through key operation and designates a music number by a key so as to transfer the music data of the desired incoming melody to the set from the music data storage section 22a.
